TIME TO STAND UP!!

HERE COME THE WOLVES - ARE YOU READY FOR THE REVOLUTION???

BOSS HOG returns from the wild with their most subversive record yet - this is the seductive soundtrack for the second coming of militant rock'n'roll, and the groove has never been stronger.

BROOD X - emerging from the dirty streets of New York City after 17 years gestation - is a futuristic brew of 21st Century blues, toxic punk rock beat music, and hyper-focused, outer-space psycho assaults. Thermo-nuclear chanteuse CRISTINA MARTINEZ blisters the hypocrites, the haters, the heartless, and the clueless hangers-on with a full-tilt microphone attack. A sex-bomb salvo for troubled times, Martinez give's voice to America's pain while pulling no punches.

BOSS HOG does not negotiate. This is scorched earth rock'n'roll for the resistance, barbed-wire blues battling for the future of the planet. Recorded & mixed at the fabled Key Club, using Sly Stone's legendary There's A Riot Going On console, BROOD X channels the subversive mojo of the underground and brings next-level sonics to save your very soul.

Tired of feeling sad? Tired of feeling beat-down? Tired of feeling used, abused, lied to, and shamed? Remember what it was like when rock'n'roll made everything all right??

BOSS HOG has heard your call.

BROOD X is the change you have been waiting for.

Let BOSS HOG lift you up.

BROOD X is a party you can believe in.
